These records were originally submitted on November 12, 1975 as part of the proprietary submittal entitled:

to 10 CFR 2.790. The information in the enclosures was developed at considerable expense by original research work performed by Western Geophysical Company. It is the type of information which that company customarily maintains in confidence and withholds from public disclosure. The release of this proprietary data would grant competitors access to the information without incurring any expense.

Kindly acknowledge receipt of the above material on the enclosed copy of this letter and return it to me in the enclosed addressed envelope.
