Re: Docket No. 50-275-OL
Docket No. 50-323-OL

Dear Sir:

Enclosed as requested by the NRC Staff are 7 copies of the following:

"Western Geophysical Company and Shell Oil Company Proprietary Seismic Reflection Data from the Offshore Region between Point Estero and Point Arguello: Basic Data, Interpretive Data, and Discussion."

The enclosures contain proprietary geologic data, and it is requested that they be withheld from public disclosure pursuant to 10 CFR 2.790. The information in the enclosures was developed at considerable expense by original research work performed by Western Geophysical Company and Shell Oil Company. It is of the type that these companies customarily maintain in confidence and withhold from public disclosure. The release of this proprietary data would grant competitors access to the information without incurring any expense.

Kindly acknowledge receipt of the above material on the enclosed copy of this letter and return it to me in the enclosed addressed envelope.

Very truly yours,

Philip A. Crane, Jr.

1. The first part of the report deals with the general situation of the country and the progress of the work during the year. It is followed by a detailed account of the various projects and the results achieved. The second part of the report is devoted to a critical analysis of the work done and a discussion of the problems encountered. The third part contains the conclusions and recommendations of the committee.
