Docket No. 50-323-OL

Dear Sir:

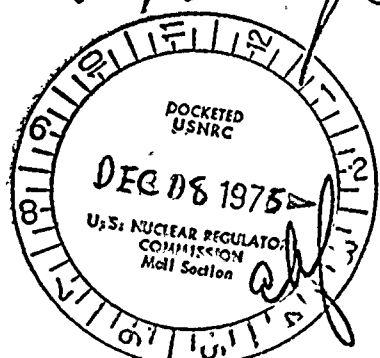

Enclosed in support of our application for an operating license for Units 1 and 2 at the Diablo Canyon Site are five copies of certain USGS offshore geophysical survey records obtained from the US Geological Survey in Menlo Park, California. The records are described on the attached list. Submittal of these records completes our response to Item 2.25 of the request for additional information transmitted with the Nuclear Regulatory Commission's letter dated November 14, 1975. All available offshore geophysical survey records relating to our application have now been submitted to the Nuclear Regulatory Commission.

Kindly acknowledge receipt of the above material on the enclosed copy of this letter and return it to me in the enclosed addressed envelope.

Very truly yours,
