Re: Docket 50-275-OL  
Docket 50-323-OL

Dear Mr. DeYoung:

Your letter dated March 15, 1974, asked that we furnish our expected dates for submittal of information on certain outstanding safety review items for Diablo Canyon, Units 1 and 2.

We expect to submit the results of our analysis of tsunamis caused by near-shore generators (your Item 2.10) by May 10, 1974.

Revised FSAR material incorporating the new 17 x 17 fuel design was submitted on March 15, 1974 in Amendment No. 5 to our application. This material currently is under review by the Regulatory Staff.

We believe that these submittal dates and the submittal dates of our previous responses to your requests for additional information should allow basic conformance to the safety review schedule given in Mr. A. Giambusso's letter dated December 21, 1973. It is our hope that the safety review can continue to follow this schedule as closely as possible, and we will continue to provide our full cooperation in expediting the review process.

Very truly yours,

3338
