

Reg. Filed 52 (275) 32301

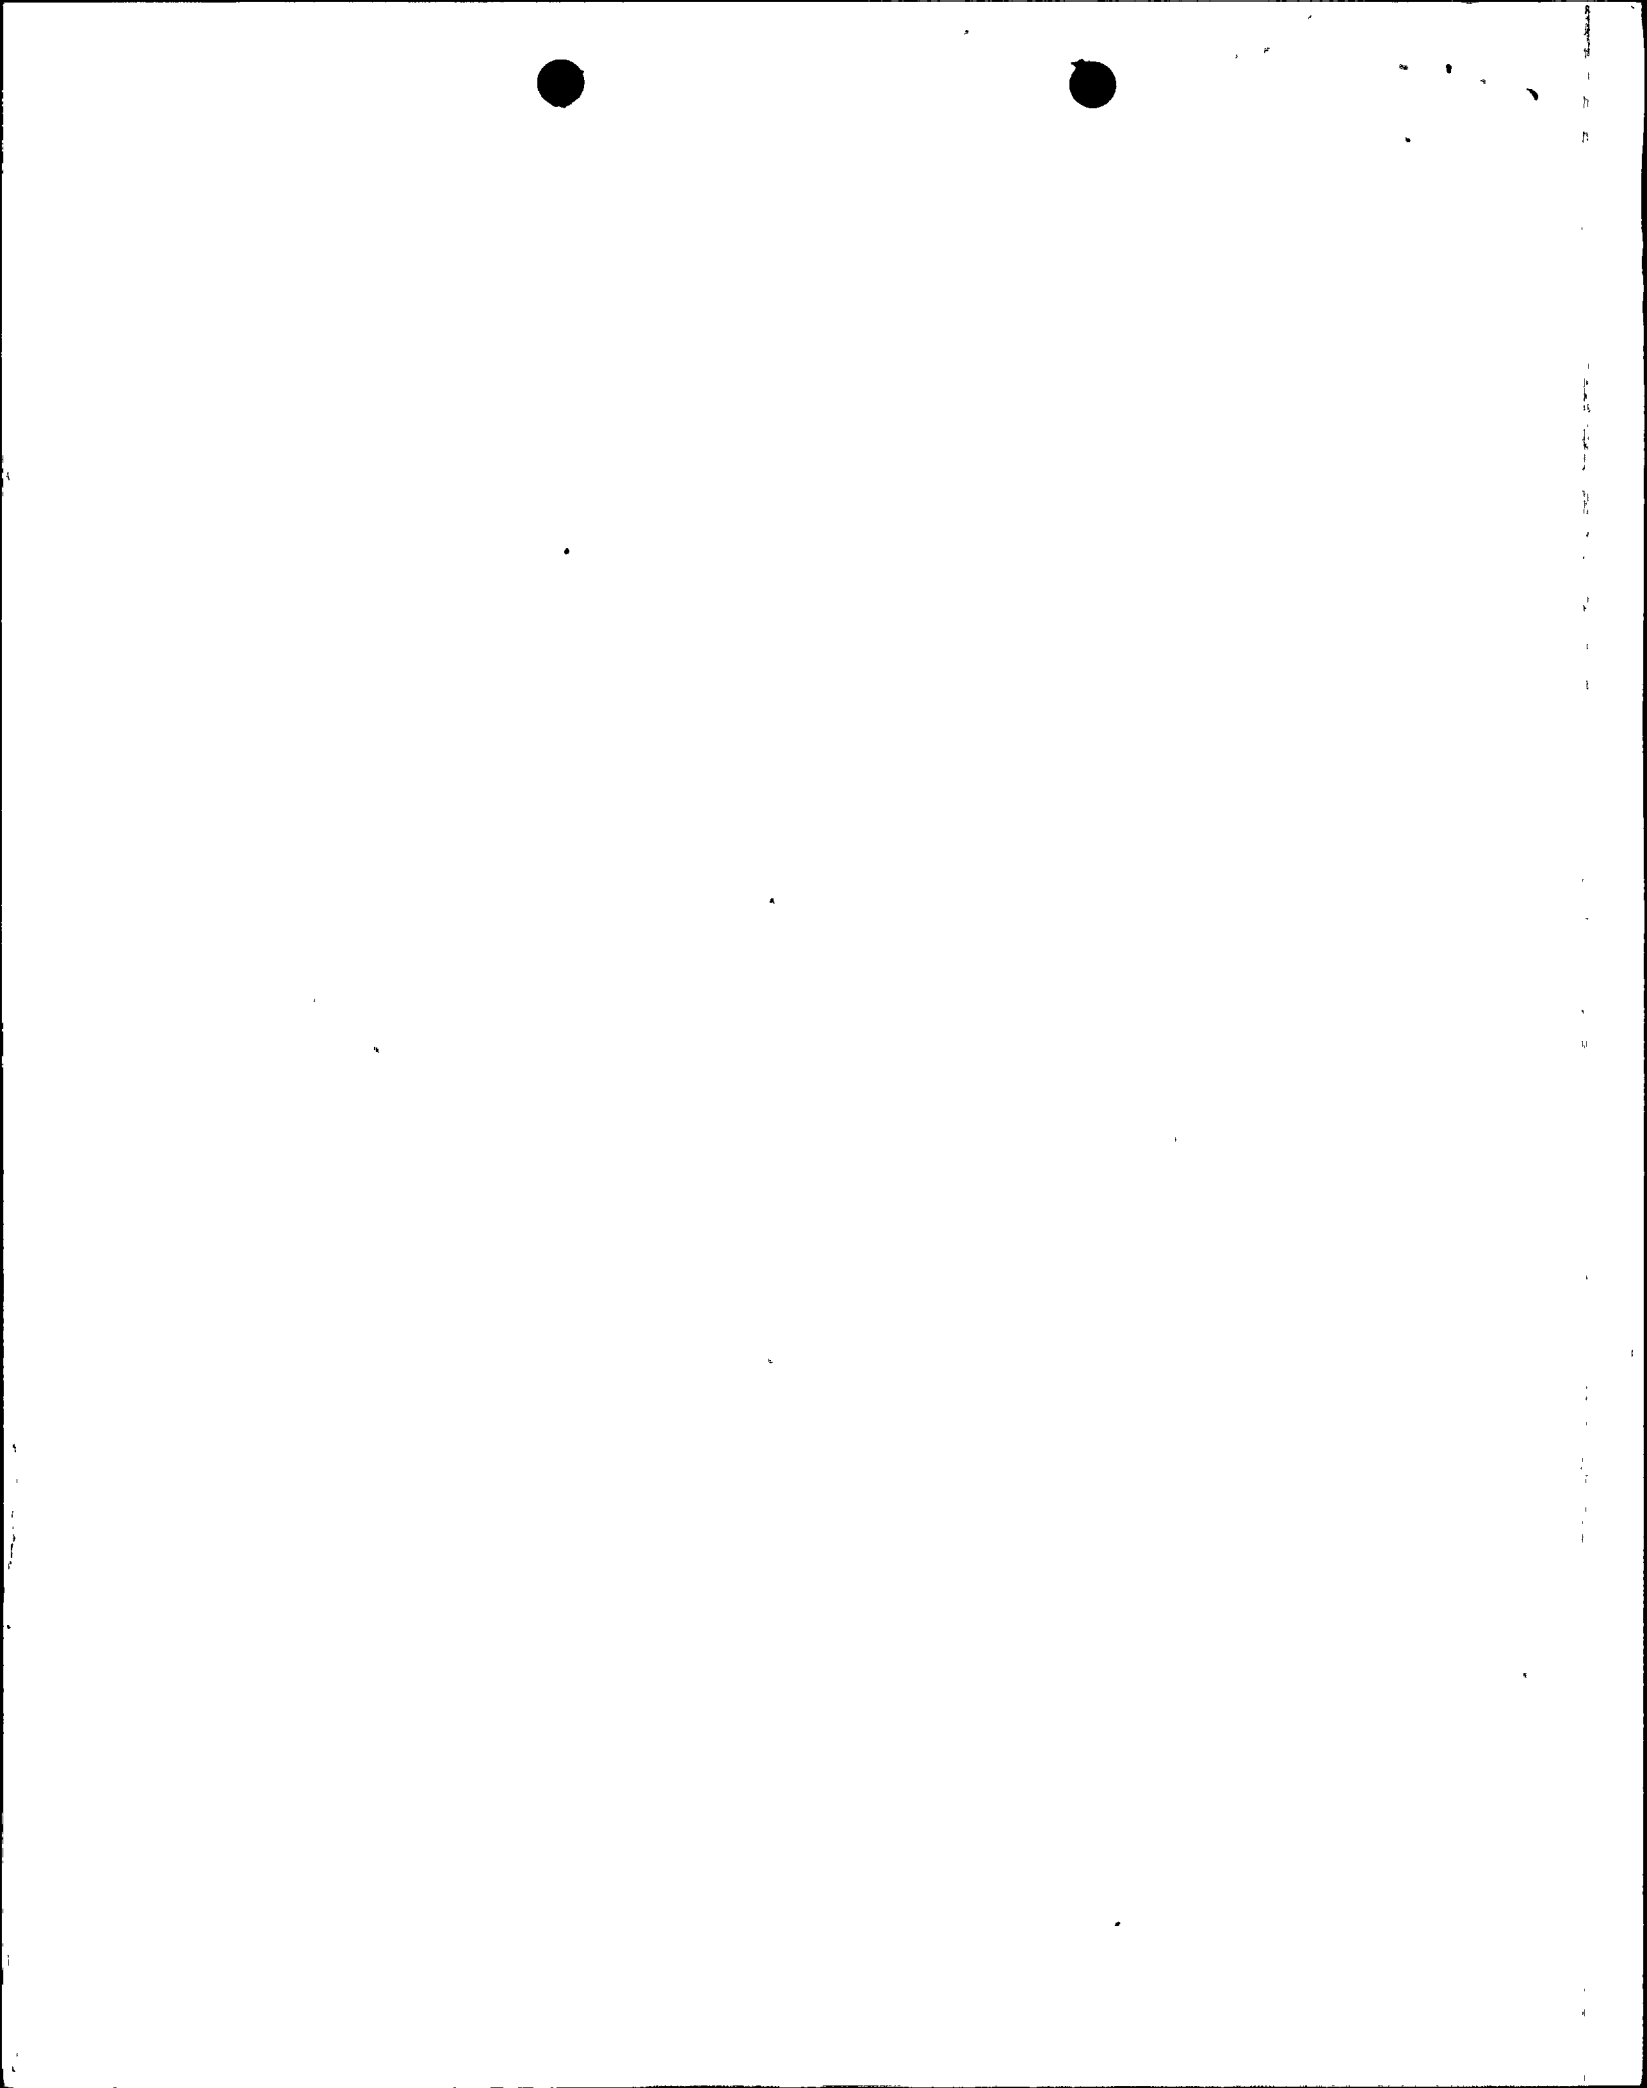

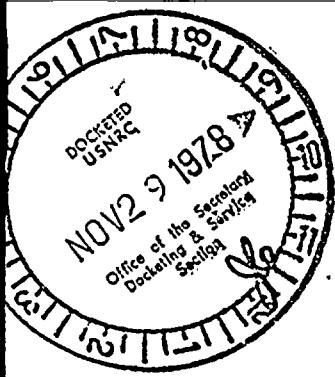

Nov. 17, 1978
11/17/78

Dear WRC,

I have written once of the proximity hearing to be held in SLO, CA. If you have answered and I have not received word my apologies for writing again but I need to know as soon as possible whether the hearing will begin as scheduled, i.e., Dec. 4, 1978? In choosing a site please keep in mind that a Chumash village used to exist where the San Luis Bay from ~~now~~ now exists. It does not seem an appropriate place to hold ~~hearings~~ hearings.

Because we are in a transition stage it is necessary to keep in mind that the highest thoughts we can have regarding life and death are those concerning love. For over 2 years now I have written letters to you asking you to not allow DuBois to perate for the love of humanity in general and the people of SLO in particular. This will probably be one of the last letters you will receive from me for awhile as I no longer have the energy nor desire to take out my frustrations with the govt. that is slowly fading and changing.

Before the Atomic Safety and Licensing Board

In the Matter of)
PACIFIC GAS AND ELECTRIC COMPANY) Docket Nos. 50-275 OL
(Diablo Canyon Nuclear Power Plant,) 50-323 OL
Units 1 and 2)

ORDER RELATIVE TO MATTER AT
THE HEARING DECEMBER 4, 1978

On November 14, 1978, counsel for the Joint Intervenors requested reconsideration of the agreement reached in the conference call the prior day that opening statements would follow limited appearance statements. The letter stated that the NRC Staff had no objection to having the opening statements proceed limited appearance statements but that counsel for PGandE could not be contacted. Since PGandE stated in the conference call if Intervenors' opening statement proceeded limited appearances, it also would plan to proceed prior to limited appearances. Since PGandE did not respond to Intervenors' letter of November 14, we presume there is no objection to the proposed change or it has been waived.

The Board expressed a concern in the conference call that having the opening statements from counsel prior to the limited appearance statements, while it could have a benefit, also might erode from the two days set aside (at the request of all parties) for limited appearance statements. Therefore, the Board has determined that it will permit opening statements prior to limited appearances but each opening statement will be limited to twenty (20) minutes.

Also by letter of November 14, 1978, counsel for Intervenor suggested that another location might accommodate a larger crowd for the first two days. This has been investigated and the best information we have is that a comparable number of people can be accommodated in each one -- allowing for counsel's tables and the court reporter so no change will be made from the stated location. It is requested that the parties restrict their technical advisors to a bare minimum the first two days.

IT IS SO ORDERED.

FOR THE ATOMIC SAFETY AND
LICENSING BOARD

Elizabeth S. Bowers
Elizabeth S. Bowers, Chairman
