MEMORANDUM FOR: Ronald L. Ballard, Chief, Environmental Projects Branch 1, DSE

FROM: Jeremiah D. Jackson, Project Manager, Environmental Projects Branch 1, DSE

SUBJECT: SUMMARY OF JULY 13, 1978 MEETING WITH INTERAGENCY ARCHAEOLOGICAL SERVICES (DOI) REGARDING DIABLO CANYON

On July 13, 1978, I met with Garland Gordon, Chief, Interagency Archaeological Services (IAS) of the Department of Interior. Mr. Gordon has been requested to review our actions regarding the Diablo Canyon Nuclear Generating Station, and the related comments of the California State Office of Historic Preservation (CSOHP). (Background behind this request is contained in our letter to Mr. Gordon dated April 21, 1978.)

The purpose of the meeting was to give Mr. Gordon an overview of the licensing history of Diablo Canyon, as it pertains to compliance with the Historic Preservation Act. We reviewed key correspondence and reports, as well as maps and photographs of the area. To further their understanding, a member of Mr. Gordon's staff will be visiting the site on July 19, 1978. Mr. Gordon indicated that their final report should be ready in about two weeks after the site visit. We agreed that it would be advantageous to meet with the applicant, PG&E, at the time the report is complete, to discuss its details with them. The NRC would then incorporate the IAS report into our reply to the CSOHP.

Two topographic maps and numerous photographs were left with Mr. Gordon for study purposes. His office will return them after the report is complete.
