R.N.

Feb. 4, 1977

RM

Dear Mr. Schwecker,

RECEIVED - 7 FEB 23 1977
Recently I read in the Pittsburgh Press that the Nuclear Regulatory Commission is in the process of granting a license that will open for operation the Dia To Canyon Nuclear Plant near the California Coast. I wish to protect the opening of this plant because its location is just three miles from an earthquake line called the Hosgri Fault.

The catastrophic consequences of this lethal combination need no explanation.

After the Titan Dam (Trasaca), why is the Federal Government per-

mitting a possible re-
peat performance with
far greater hazardous
potential to the people
of the United States)?

With this letter, I am
asking you to use your
representative power
to stop the opening of
the Diablo Canyon Nuclear
Plant before it is too late
for anyone, even a
president, to stop a
nuclear radiation spill
that could kill thousands.

Sincerely,

Cynthia Jarzab
