In the Matter of	)	
PACIFIC GAS AND ELECTRIC COMPANY	)	Docket Nos. 50-275-OL
Units 1 and 2	)	50-323-OL
Diablo Canyon Site	)	

---

Pursuant to 10 CFR 50.55(b) Pacific Gas and Electric Company hereby requests the Commission to extend the completion date of Construction Permit No. CPPR-39 from July 1, 1975 to July 1, 1976, and to extend the completion date of Construction Permit No. CPPR-69 from July 31, 1976 to July 31, 1977.

Units 1 and 2 at the Diablo Canyon site have been delayed approximately six months by construction craft strikes during 1974. The project was essentially shut down from July 1, 1974 to November 11, 1974. When the strike terminated, only approximately forty percent of the original work force was available to return to work. It took approximately five weeks to remobilize the work force back to the pre-strike level. This five-week period was used for recruiting replacement craft labor, retraining, and requalification of welders.

In addition, future uncertainties including potential delays in licensing arising out of protracted public hearings, electrical construction craft labor negotiations, and unanticipated delays in the latter stages of construction and preoperational testing make

it desirable to extend the completion dates of the Diablo Canyon construction permits for the one year herein requested.

Subscribed in San Francisco, California, this 19th day of May, 1975.

Respectfully submitted,

PACIFIC GAS AND ELECTRIC COMPANY
