

APR 26 1972

Docket Nos. 50-275  
and 50-323

Pacific Gas and Electric Company  
ATTN: Frederick T. Searls  
Vice President and General  
Counsel  
77 Beale Street  
San Francisco, California 94106

Gentlemen:

In an effort to be more responsive to the needs of the public, the Commission has established a document room relating to your application for the Diablo Canyon facility at the San Luis Obispo County Free Library, 1354 Bishop Street, San Luis Obispo, California 93401 (Mrs. Dale Perkins, Librarian).

We have provided instructions as noted in the enclosed letter to the librarians in charge of these document rooms. However, we believe further assistance and guidance would be useful to them and request that you have one of your representatives make periodic checks of the materials available. In particular, your representative should assure that revised and supplemental information is properly incorporated in the application and safety analysis report, and that any other amendments, reports, and letters which you have filed with us are available. It is not necessary that you actually supply these documents as we will forward them to the document room, together with the documents originated by or for AEC such as the following: AEC letters requesting additional information, letters written to you by Regional Offices of the Division of Compliance, your Environmental Report, the Draft and Final Detailed Statements and all comments thereon, Safety Evaluations, the report of the Advisory Committee on Reactor Safeguards, all Federal Register notices, orders, permits, licenses, any advice rendered by the Attorney General and matters relating to the public hearing on your application (requests for limited appearances, petitions for intervention, orders or decisions of the Atomic Safety and Licensing Board, and hearing transcripts).

If you should encounter situations where documents of this type are missing, please provide them if you have them available. If not, please telephone

our central files (973-7333) and advise them so that the missing information can be provided.

We will appreciate your cooperation in this matter.

Sincerely,

Original Signed By

K. R. Goller

Richard C. DeYoung, Assistant Director  
for Pressurized Water Reactors  
Division of Reactor Licensing
