AGENDA

1. Discussion of the geological characteristics of offshore faults adjacent to the Diablo Canyon site.
2. Are these offshore features similar to or different from known, throughgoing faults in California, e.g., the San Jacinto Fault system?
3. Do correlations exist between these offshore faults and known earthquakes?
4. Discussion of USGS "Open-File" offshore geological data.

1950

1. The first part of the report is devoted to a general survey of the situation in the country. It is followed by a detailed analysis of the economic and social conditions. The third part of the report is devoted to a study of the political situation and the role of the government. The fourth part of the report is devoted to a study of the cultural and educational situation. The fifth part of the report is devoted to a study of the international situation and the role of the country in the world.
