PACIFIC GAS AND ELECTRIC COMPANY

(Diablo Canyon Nuclear Power Plant, Unit 2)

DOCKET NO. 50-323

NOTICE OF ISSUANCE OF AMENDED CONSTRUCTION PERMIT

Notice is hereby given that pursuant to an Initial Decision, dated November 23, 1973 by the Atomic Safety and Licensing Board, the Atomic Energy Commission has issued Amendment No. 2 to Provisional Construction Permit No. CPPR-69 issued to Pacific Gas and Electric Company for construction of the Diablo Canyon Nuclear Power Plant, Unit 2, in San Luis Obispo County, California. The Initial Decision lifts the suspension on removal of the discharge structure cofferdam imposed by the Atomic Safety and Licensing Board in its decision of June 5, 1972. The amendment requires the conduct of monitoring studies to determine the actual effects of the removal of such cofferdam.

The Director of Regulation has found that the provisions of the amendment comply with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations published in 10 CFR Chapter I and has concluded that the issuance of the amendment will not be inimical to the common defense and security or to the health and safety of the public.

A copy of the Initial Decision dated November 23, 1973 and Amendment No. 2 to CPPR-69, and other related documents are available for public inspection at the Commission's Public Document Room, 1717 H Street, N. W., Washington, D. C., and the San Luis Obispo City-County Library, 888 Morro Street, San Luis Obispo, California 93406. Single copies of the Initial
