Nuclear Regulatory Commission  
Washington,  
D. C.

Dear Sir/Madam:

I write to suggest that you deny a license to the Pacific Gas & Electric Company for operation of a reactor at Diablo Canyon in San Luis Obispo County, California.

The site is apparently too close to an earthquake fault zone to assure that there will not be major ground movement at some future time.

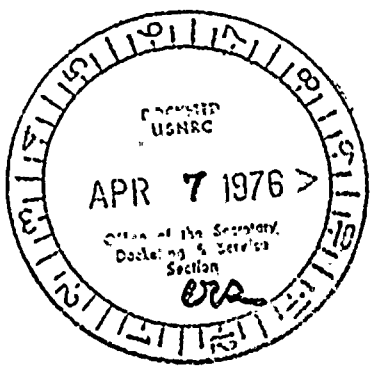

Assuming that accidents can be avoided, there is still the problem of disposal of radioactive wastes with very long half lives. This problem is in itself sufficient to ban the construction of any new nuclear plants.

Solar energy is the only form compatible with life and maximum stabilization of the biosphere.

Sincerely,

*J. B. Neildands*
