Division Materials Safety, State, Tribal
and Rulemaking Programs
Office of Nuclear Material Safety and Safeguards
T8-E24
Washington, D.C. 20555-0001

Dear Deputy Director Henderson:

Enclosed are copies of the final revisions to the New Hampshire Radiological Health Rules as identified below. The final rules are identified by the roadmaps that illustrated the revised rules, which correspond to their equivalent amendments to NRC's regulations.

Table with 3 columns: Rats ID, Title, State Section. Rows include: 1997-3 Criteria for the Release of Individuals Admin. Rad. Material [He-P 4003, 4020, 4022, 4035]; 2001-1 Requirements for Certain Generally Licensed Industrial Devices Containing Byproduct Material [He-P 4030, 4031, 4032]; 2002-2 Medical Use of Byproduct Material [He-P 4003, 4020, 4032, 4035]; 2004-1 Compatibility with IAEA Transportation Safety Standards ... [He-P 4037]

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200.

If you have any questions, please feel free to contact me at (603-271-4585) or my email (augustinus.ong@dhhs.nh.gov).

Sincerely,
Augustinus Ong
Administrator
Radiological Health Section

Enclosures: As stated in the above and their corresponding roadmaps.
