Attention: Document Control Desk
Division of Spent Fuel Storage and Transportation
Office of Nuclear Material Safety and Safeguards
Washington, DC 20555-0001

REFERENCE: University of Missouri-Columbia Research Reactor
Amended Facility License No. R-103

SUBJECT: User registration for the following two radioactive material transportation packages:

- Package Identification Number, USA/9337/B(U)-96
- Package Identification Number, USA/9338/B(U)-96

The University of Missouri-Columbia Research Reactor (MURR) hereby provides notification of their use of the two transportation packages identified above. This notice is submitted as required by the general license provisions of 10 CFR 71.17(c)(3).

MURR has a Quality Assurance Program approved by the U.S. Nuclear Regulatory Commission as satisfying the requirements of 10 CFR 71, Subpart H, and is in possession of a current copy of the Certificates of Compliance for both packages. In addition, MURR is in possession of all pertinent documents relating to the use and maintenance of the packages.

If any additional information is needed, please contact me at (573) 882-5226 or ernstj@missouri.edu.

Sincerely,

John Ernst
Senior Advisor
