Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2
Renewed Facility Operating License Nos. DPR-53 and DPR-69
NRC Docket Nos. 50-317 and 50-318

Subject: Request for Initial Operator License Re-Examination Support

Exelon Generation requests the Nuclear Regulatory Commission's (NRC's) support for administering an initial operator license re-examination during the week of February 6, 2017. Calvert Cliffs training personnel will prepare the operating examination in accordance with NUREG-1021, Revision 10.

In addition, Exelon Generation requests the NRC's support for administering an initial operator written re-examination in early June 2017. Calvert Cliffs training personnel will prepare the written examination in accordance with NUREG-1021, Revision 10.

To permit timely NRC review and evaluation we will submit the preliminary Senior Reactor Operator license application and medical certification at least 30 days before the examination dates agreed upon by the NRC. A signed application certifying that all training has been completed will be submitted at least 14 days before the examination dates.

Should you have questions regarding this matter, please contact Mr. Larry D. Smith at (410) 495-5219.

Respectfully,

Mark D. Flaherty
Plant Manager
