Ms. Kate Addleson  
Sierra Club-Virginia Chapter  
422 East Franklin Street  
Suite 302  
Richmond, VA 23219

Dear Ms. Addleson:

Our primary mission is to protect public health and safety and ensure that each new nuclear power plant is designed and built in accordance with our regulations. I can assure you that as the U. S. Nuclear Regulatory Commission (NRC) proceeds in the licensing process for North Anna 3 it will be done in a careful, deliberate, transparent, and responsible manner. Our review is conducted in accordance with our regulations and guidance and is based on sound engineering practices. We concluded as documented in our safety evaluation that the application meets the requirements of federal statutes and NRC regulations. The Advisory Committee on Reactor Safeguards (ACRS) met and the final ACRS recommendation on the North Anna 3 combined operating license application will be included in a letter to the Commission.

The Commission will then hold a hearing where the staff will present its safety findings. With the staff information along with the recommendation provided by the ACRS, the Commission will provide their determination on whether to grant a combined license to Dominion for the North Anna 3 reactor.

For additional information on the NRC licensing of new reactors, please visit our website for new reactor licensing.

Sincerely,

*/RA/*

Francis M. Akstulewicz, Director  
Division of New Reactor Licensing  
Office of New Reactors
