Dear Ms. Taylor:

This is in regard to the February 16, 2016 request for surveys associated with the following federally listed and endangered species: Small-whorled pogonia, Sensitive joint- vetch and Atlantic sturgeon. Due to the deferred construction and operation of Unit 3 for Lake Anna Power Station in Louisa County, VA and Walkerton roll-off facility in King William County, VA; the surveys may be waived for 2016 for the above-mentioned species. However, if the construction timeline changes, surveys will be required as stated in the Department of the Army permit.

If you have any questions, please call 540-548-2838 or email at [regena.d.bronson@usace.army.mil](mailto:regena.d.bronson@usace.army.mil).

Sincerely,
