RSO (Until November 30, 2016):
Evan Kimberly
Phone: 302-999-1132
EVAN@DDK.COM

Evan,
As soon as possible, please apply for an amendment to ask for a change in RSO. It could take up to 90-days for approval for the amendment from the time we receive your amendment request. There is no cost associated with a license amendment.

You will need to designate a qualified person to act as the RSO in the interim.

Please don't forget license condition number 11, that licensed material shall be used by, or under the supervision of, one of the authorized users on the current license; i.e., Evan Kimberly or Joseph Tabeling. If you will continue to be an authorized user and/ or if you will be adding other authorized users on the license then please state so in the application.

To apply for an amendment, please fill out an NRC Form 313 (attached) and have it signed/ dated by a certifying officer, which in this case could be Mr. Tabeling since he is the President of the company. Please send it to:

Licensing Assistance Team
Division of Nuclear Materials Safety
U.S. Nuclear Regulatory Commission, Region I
2100 Renaissance Blvd, Suite 100

comments: Hello,

As of December 2016, I will no longer be working in my current position as the Radiation Safety Officer for Applied Diamond Inc. I was wondering what steps we would need to take as a company in order to remove my name from any relevant paperwork, such as the license, in order ensure proper coordination of any and all necessary paperwork. We are docket # 0308695, if it is useful.

Thanks for any and all information!
