Category: This is a Category 2 meeting. The public is invited to participate in this meeting by discussing regulatory issues with the Nuclear Regulatory Commission (NRC) at designated points identified on the agenda.

Purpose: The purpose of this meeting is to provide a platform for open discussion with the BWROG on their plans to risk-inform potential ECCS suction strainer issues 2 & 4 (Chemical Effects and In-Vessel Debris/Downstream Effects). The BWROG will also present the revised closeout strategy for the additional 10 issues which were already on a path for risk-informed resolution. This meeting follows the drop-in meeting with the BWROG on 10/4. Since 10/4 the BWROG has formally withdrawn topical report NEDC-33608P, In-Vessel Downstream Effects, and had suspended their testing program.
