David Snethkamp  
Radiation Safety Officer  
Solar Testing Laboratories, Inc.  
1125 Valley Road  
Brooklyn Heights, OH 44131

SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

Dear Mr. Snethkamp:

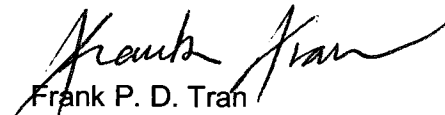

In the NRC Form 314 "Certificate of Disposition of Materials" dated September 21, 2016, you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive material license. You provided that all licensable radioactive material has been transferred to your license which was issued by the State of Ohio (License No. 31210180065). The NRC staff has reviewed the provided leak test records and based on its review, has concluded that residual radioactive material attributable to licensed activities, if any, does not exceed current NRC criteria.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. Therefore, NRC license number 34-16119-04 is hereby terminated.

In accordance with Title 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at (630) 829-9887.

Sincerely,

  
Frank P. D. Tran
