

***** STOP NUCLEAR POWER *****

8005090136 G

Nuclear power has been proven to be unsafe and uneconomical. Diablo Canyon lies 2 1/2 miles of the active Hosgri earthquake fault. Solar power, conservation, and other safe, renewable resources can meet our energy needs by the mid-1980's. Therefore we, the undersigned, petition for the denial of an operating license for the Diablo Canyon Nuclear Power plant, San Luis Obispo County, California.
