Date: February 14, 1981

Chairman John F. Ahearne  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Chairman Ahearne:

To those of us living near the Diablo Canyon Nuclear Power Plant it comes as a repeated unpleasant surprise that your Commission continues to stall on the necessary operating license for Pacific Gas & Electric Company.

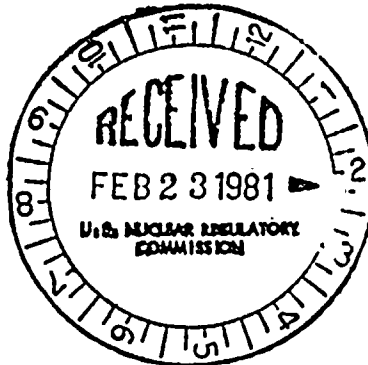

The radical agitators, who are forever changing the bases of their objections to the plant, have never been able to show that it poses dangers to our area, much as they try with their propaganda slogans to scare people in as many ways as possible. You should recall that the voters have repeatedly expressed their wish that the plant be put into operation.

Let's get on with it--without further ado!

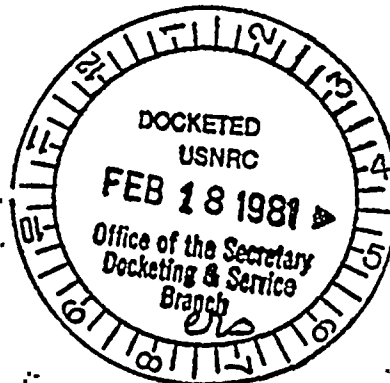

Sincerely,

*Paul H. Kocher*
