MAR 3 1981
The Secretary
of Energy & Service
Branch

Dear Chairman of U.S. Nuclear Reg. Comm.,

My wife and I wish to urge you and NRC to grant an operating license as soon as it is possible, not only because of the great need in California but also to free us a little more from our dependence on foreign oil - we still don't quite fully understand why preventing P. Brandt's investment in billions of dollars in such a plant and stop it cold from licensing it, later after, proven safe, with any danger! Please take action immediately on this matter.

Sincerely yours,
Robert A. Torrice

To:
Chairman
U.S. Nuclear Regulatory Commission,
1717 H Street, N.W.
Washington, D.C. 20555

Dear Sir,

Diablo Canyon Nuclear Power Plant has met all safety and seismic requirements, including those instituted since Three Mile Island. The plant is needed to provide electrical energy in the crucial years ahead. We urge the NRC to grant an operating license at the earliest opportunity.

Sincerely,
Robert A. Torrice
