Mr. John F. Ahearne, Chairman,
U.S. Nuclear Regulatory Commission,
1717 "H" Street N.W.,
Washington, D.C. 20555.

Dear Mr. Ahearne:

I would appreciate your prompt action on the licensing of the Diablo Canyon as well as Units 2 and 3 of the San Onofre Plants.

The power generated by nuclear plants is cheap, clean and safe. The safety factor has been proven by reputable nuclear scientists like Drs. Beckman and Teller. Of course, the "no-growth" nukes led by Fonda, Haydon, Brown and co. are against it. Taking the word of a good scientist is much more plausible than of the no-nukes.

I do hope that you will license the above mentioned plants in the very near future.

Most sincerely,

Kenji Murata
