BAKERSFIELD PARLOR

Dear Dr. Pallidino,

As a member of an old pioneer family of some 200 years in California, I'd like to see the Diablo plant opened & produce more energy for all.

The writer has recently gone through this wonderful project with a local service club and has seen all the added safety features taken.

Most all the better citizens and educated people fail to speak out or are too busy to pen a few lines to you.

The ones I've seen protesting and demonstrating have nothing else to do, and must like the idea of getting into the media & might even get their pictures taken!

Dr. Nunzio J. Pallidino, Chairman
Nuclear Regulatory Commission
1717 H St., N.W.
Washington, D.C. 20555

Dear Dr. Pallidino:

As the new chairman of the Nuclear Regulatory Commission, I urge you to hasten the licensing of the Diablo Canyon nuclear power plant in San Luis Obispo County.

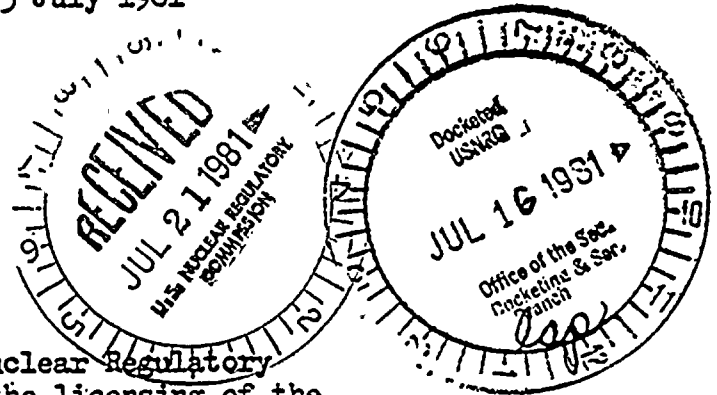

Nuclear power has a proven safety record and the economy of operation is unequalled by fossil fuels.

More attention has been given to the safety of nuclear power plants than to all other energy sources combined. The relative high safety having been firmly established, the only way to go is "full power ahead."

Sincerely,

Donald J. Curtis
