MEMORANDUM FOR: Darrell G. Eisenhut, Director
Division of Licensing

FROM: Robert L. Tedesco, Assistant Director
for Licensing
Division of Licensing

SUBJECT: WEEKLY STATUS - SEQUOYAH 1 & 2 AND DIABLO CANYON 1

The following summarizes the significant activities associated with the Sequoyah Units 1 & 2 and Diablo Canyon Unit 1 plants for the period starting Friday, October 23 through October 29, 1981.

Sequoyah

Unit 1 achieved criticality on 10/28/81 which is 3 days later than anticipated. Stringent chemistry requirements in the steam generator's SGS's caused the delay. Unit 2 is expected to go critical on November 1, 1981.

Diablo Canyon

Friday, October 23, issued Board Notification No. 81-33 transmitting meeting summary of NRC audit review team's meeting with PG&E on October 14-16, 1981.

Also on Friday, October 23, issued Board Notification No. 81-34 transmitting FEMA's position on the Offsite Emergency Prepared Plan for low power testing at Diablo Canyon,

On Thursday, October 29, scheduled meeting with PG&E for Tuesday, November 3, in Bethesda to discuss progress of its evaluation of the seismic discrepancy in the annulus area of containment Unit 1.
