

DEC 10 1981

The Honorable Edmund G. Brown, Jr.  
Governor of California  
Sacramento, California 95814

Dear Governor Brown:

Subject: Diablo Canyon Seismic Verification Program

As I have discussed with Herb Brown and Byron Georgiou, the Pacific Gas & Electric (PG&E) Company has submitted to the Nuclear-Regulatory Commission its response to items 2 and 3 in Attachment 1 of the Commission's Order (CLI-80-30) dated November 19, 1981. I understand that PG&E provided copies of this response to your office on December 8, 1981. The Commission's order provides you a period of fifteen days from receipt of the response for filing written comments with the NRC.

I would appreciate an opportunity to discuss your views on the company's proposed contractors and verification program. Such a meeting with you or your representatives during the comment period would be desirable. I anticipate Commission consideration of PG&E's response, and written comments, shortly after the first of the year. If you should have any questions on this matter please contact me.

Sincerely,
