Gentlemen:

The Commission, in its meeting on March 4, 1982, accepted the staff recommendation that the Diablo Canyon Seismic Design Verification Program - Phase I be performed by a contractor (such as Teledyne) with (1) little previous involvement with Pacific Gas and Electric Company and (2) a large experienced staff in nuclear power plant design and quality assurance. The Commission also directed the staff and advised all other parties to the Diablo Canyon proceeding to reach agreement within one week on one or more of such organizations acceptable to all parties.

As discussed by Mr. William Olmostead on Friday, March 5, 1982, the purpose of this letter is to request that you prepare such a list of proposed contractors. The list will form the basis for discussion, in conjunction with similar lists prepared by the other parties, at a meeting of the parties on Wednesday, March 10, 1982 at 9:00 a.m. in Room 422 of the Phillips Building in Bethesda, Maryland.

Sincerely,

ORIGINAL SIGNED BY
R. L. TEDESCO
