

APR 28 1982

50-275

The Honorable Robert J. Lagomarsino  
United States House of Representatives  
Washington, DC 20515

Dear Congressman Lagomarsino:

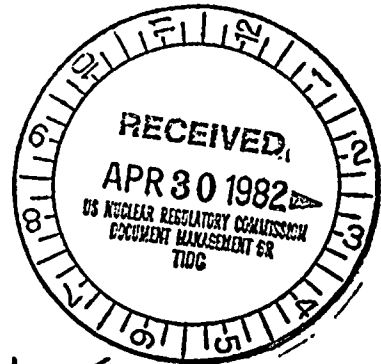

This is in response to your constituent's, Mr. J. M. Boland, letter of March 16, 1982 in which he expressed concern over the increase in electrical costs in Santa Barbara, California and asked who would pay if the Diablo Canyon nuclear power plants were not to come on line? The Nuclear Regulatory Commission (NRC) has no direct knowledge of the Pacific Gas and Electric (PG&E) Company's rate increase which your constituent cited, nor do we regulate costs associated with the cancellation of nuclear power plants. You may wish to refer Mr. Boland to the State of California Public Utilities Commission to obtain information about rate increases and the handling of costs associated with power plant cancellation.

I regret that we are unable to be more directly responsive to your constituent's concerns.

Sincerely,

(Signed) T. A. Rehm

William J. Dircks  
Executive Director for Operations

The Honorable Robert J. Lagomarsino  
 United States House of Representatives  
 Washington, DC 20515

Dear Congressman Lagomarsino:

This is in response to your constituent's, Mr. J. M. Boland, letter of March 16, 1982 in which he expressed concern over the increase in electrical costs in Santa Barbara, California and asked who would pay if the Diablo Canyon nuclear power plants were not to come on line? The Nuclear Regulatory Commission (NRC) has no direct knowledge of the Pacific Gas and Electric (PG&E) Company's rate increase which your constituent cited. Also, the NRC's delegated responsibilities do not include the treatment of costs associated with the cancellation of nuclear power plants. You may wish to ask the State of California Public Utilities Commission about rate increases and the handling of costs associated with power plant cancellation. Usually, the cost of a new plant is not included in the rate base until the plant goes into commercial operation. The approximate cost of both Diablo Canyon Units as of September 30, 1981, is 2.3 billion dollars.

I trust that the above information will be helpful in responding to your constituent's concerns.

Sincerely,

William J. Dircks  
 Executive Director for Operations
