DCP/IDVP Meeting

Gentlemen:

This letter is with regard to a meeting held in San Francisco on June 22, 1983 between members of the IDVP and the DCP. This meeting was requested by the IDVP to discuss out-standing Requests For Information to the DCP on the topic of rupture restraints. The meeting was attended by representatives of the DCP, R.L. Cloud Associates and TES.

This meeting was earlier scheduled for June 20, 1983 and a meeting notice was provided to the Staff and designated other parties on June 17, 1983. However, at the request of the DCP, the meeting was postponed and the notice was withdrawn. Subsequently, on or around June 20, the meeting was rescheduled by the DCP for June 22, 1983 and the meeting was held on this date. Because of a failure in communication between IDVP participants on both coasts, and between the IDVP and DCP, the meeting was held without the issuance of a revised notice, as required by IDVP program procedures.

-2-

Extensive meeting notes were prepared by a representative of the DCP, and those notes are available for review by the NRC Staff and other parties upon request. In addition, we would be happy to meet with you and answer any questions you may have with respect to this issue.

Sincerely,

TELEDYNE ENGINEERING SERVICES

William E. Cooper IDVP Program Manager
