Re: Docket No. 50-275, OL-DPR-76
Diablo Canyon Unit 1
Evaluation of Masonry Walls in Accordance
with IE Bulletin 80-11 Criteria

Dear Mr. Knighton:

Your June 7, 1983 letter to P. A. Crane requested additional information in order to review PG&E's 1981 report on the evaluation of Diablo Canyon Unit 1 masonry walls in accordance with the criteria of IE Bulletin 80-11.

The information requested in the June 7, 1983 letter is included in Appendix A of the enclosed report. The enclosed report supersedes the 1981 report as it uses the most recent Hosgri response spectra and incorporates current design practice.

Masonry wall fixes are being implemented and are identified in the report. The NRC Staff will be notified if any additional fixes are identified from the analysis for line break and jet impingement effects.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it in the enclosed addressed envelope.

Sincerely,

J. O. Schuyler
