TECHNICAL SPECIFICATION 3/4.7.7
SNUBBERS

Present Condition of License

The present Technical Specification for Snubbers, Section 3/4.7.7, contains tables listing Mechanical and Hydraulic Snubbers.

Proposed Condition of License

1. Replace Technical Specification 3/4.7.7 with the Technical Specification shown in Attachment 2.
2. Change Administrative Controls Section 6.10.2m page 6-21 as shown in Attachment 2.

Justification

As a result of the Independent Design Verification Program and the Internal Technical Program, significant changes have been made to the pipe support systems at Diablo Canyon Unit 1. The snubber listings in Tables 3.7-3 and 3.7-4 are no longer applicable as a result of these changes.

All changes to support systems were reviewed in accordance with Section 50.59 of 10 CFR Part 50 and determined not to constitute an unreviewed safety question.

The changes reflected in the revised tables do not reduce the Diablo Canyon Unit 1 margin of safety and, therefore, are considered to involve no significant hazards considerations as defined in 10 CFR 50.92.
