1. The purpose of this document is to provide a comprehensive overview of the current status of the project and to identify the key areas that require attention.

2. The project has made significant progress since the last meeting, with most of the initial objectives being met.

3. However, there are several challenges that we are currently facing, and it is important that we address them as soon as possible.

4. The following table provides a detailed breakdown of the project's performance across various key performance indicators (KPIs).

5. Summary of findings and recommendations.

6. The project is on track, but we need to focus on the areas of risk and resource allocation.

Responses to Allegations (Affidavits)

Dear Mr. Denton:

PGandE letter DCL-84-252, dated July 3, 1984, provided affidavits for responses to the Government Accountability Project allegations addressed in PGandE letters dated April 30, 1984, May 17, 1984, and May 29, 1984. One affidavit was not signed because of the unavailability of the individual. The signed version of this affidavit is enclosed.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it in the enclosed addressed envelope.

Sincerely,

Enclosure

AFFIDAVIT OF R. K. RHODES

STATE OF CALIFORNIA)

CITY AND COUNTY OF SAN FRANCISCO)

ss.

The above, being duly sworn, deposes and says:

I, Keith Rhodes, am Technical Services Supervisor with the General Construction Station Department Instrument and Control (I&C) Group. I have held this position since January 1, 1980. I am currently assigned to the Diablo Canyon Project Startup Department and am responsible for directing activities of the Instrument and Control Group.

My education background is as follows: AS degree in electronics, Cuesta College, San Luis Obispo, 1976.

During the period from June 1980 until May 1983 I was assigned to the Technical Services I&C Group in Emeryville, California. I was responsible for supervising the I&C personnel at various job sites on work assigned to General

Construction Station Department, including the Diablo Canyon Project, Geysers Project, and Helms Project.

I was made a Field Engineer in 1975 and was responsible for supervising activities of the Diablo Canyon General Construction I&C Group. I was also responsible for directing contractor instrument installation and valve maintenance work.

In 1972 I was made a General Construction Technical Subforeman and assigned the responsibility of directing the contractor, S&Q Construction.

From 1967 until 1970 I was self-employed.

I initially joined PGandE East Bay Division in 1962 and was an Apprentice Instrument Repairman at the Pittsburg Power Plant.

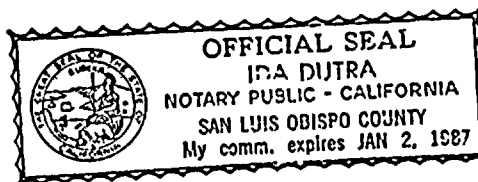

The statements in Par. 312-318, at 148-151 in PGandE Letter No. DCL-84-195, dated May 29, 1984 to the Nuclear Regulatory Commission are true and correct to the best of my knowledge, information and belief.
