ATOMIC ENERGY COMMISSION  
WASHINGTON, D.C. 20545

LUCIL PDR

Docket Nos. 50-275  
and 50-323

NOV 5 1973

Applicant-File

Pacific Gas and Electric Company  
ATTN: Mr. Frederick T. Searls  
Vice President and General  
Counsel  
77 Beale Street  
San Francisco, California 94106

Gentlemen:

A member of our staff recently visited the local public document room for Diablo Canyon which is located in the San Luis Obispo County Library in San Luis Obispo. During this visit it was noted that the correspondence, documents, safety analysis reports, etc., related to the Diablo Canyon application were rather poorly organized; in fact, the materials were actually located in several different locations around the library building.

As in our letter of October 10, 1973, we would like to remind you again that it is your responsibility to have one of your representatives make periodic checks of the material available in the local document room to assure that revised and supplemental information is properly incorporated into that copy of the application and the Final Safety Analysis Report, and that any amendments, reports, letters and notices pertaining to the application have been filed in an orderly manner. If you encounter situations where documents of this type are missing, please provide them if you have copies available. If not, please advise us so that the missing information can be provided.

We would appreciate your cooperation in this matter.

Sincerely,

R. C. DeYoung, Assistant Director  
for Pressurized Water Reactors  
Directorate of Licensing

cc: Philip A. Crane, Jr.
