Re: Docket No. 50-275
Diablo Canyon Unit 1

Subject: Proposed Changes to Technical Specifications for Snubbers
and A. C. Power Sources

Dear Mr. Miraglia:

As discussed in a telephone conversation on December 2, 1980 between the NRC (B. Buckley, R. Bottimore, and M. Vergilio) and PG&E (J. Gisclon, B. Lew, M. Williamson, and L. Womack), we are submitting the attached proposed changes to the Diablo Canyon Unit 1 Technical Specifications for your approval.

Attachment A to this letter covers Technical Specification 3.7.7.1, Snubbers, and Attachment B covers Technical Specification 3.8.1.1, A. C. Power Sources. The latter specifically covers the emergency diesel generators fuel oil storage and supply system. These attachments have been provided to ease distribution to the responsible reviewer. Each attachment provides a statement of the existing specification or requirement, a discussion of the proposed changes, plant and equipment design information pertinent to the proposed changes, and the proposed changes on a marked-up copy of the existing specification.

Please acknowledge receipt of the attached material on the enclosed copy of this letter and return it to me in the enclosed addressed envelope.

Very truly yours,

Philip A. Crane, Jr.
