Dear Mr. Hendrie

I wish to express my  
about the course of events relating to  
the licensing of Diablo Canyon.

As the the Crow flies, I live  
and work six miles from this plant. I  
wish to see it remains non-operative and  
would ever be willing to pay a share of  
the bill to underwrite its failure to open.

Nuclear energy is far too volatile  
an energy reaction to be so speedily produced  
We are still in the dark as to the long  
term effects of low level radiation.

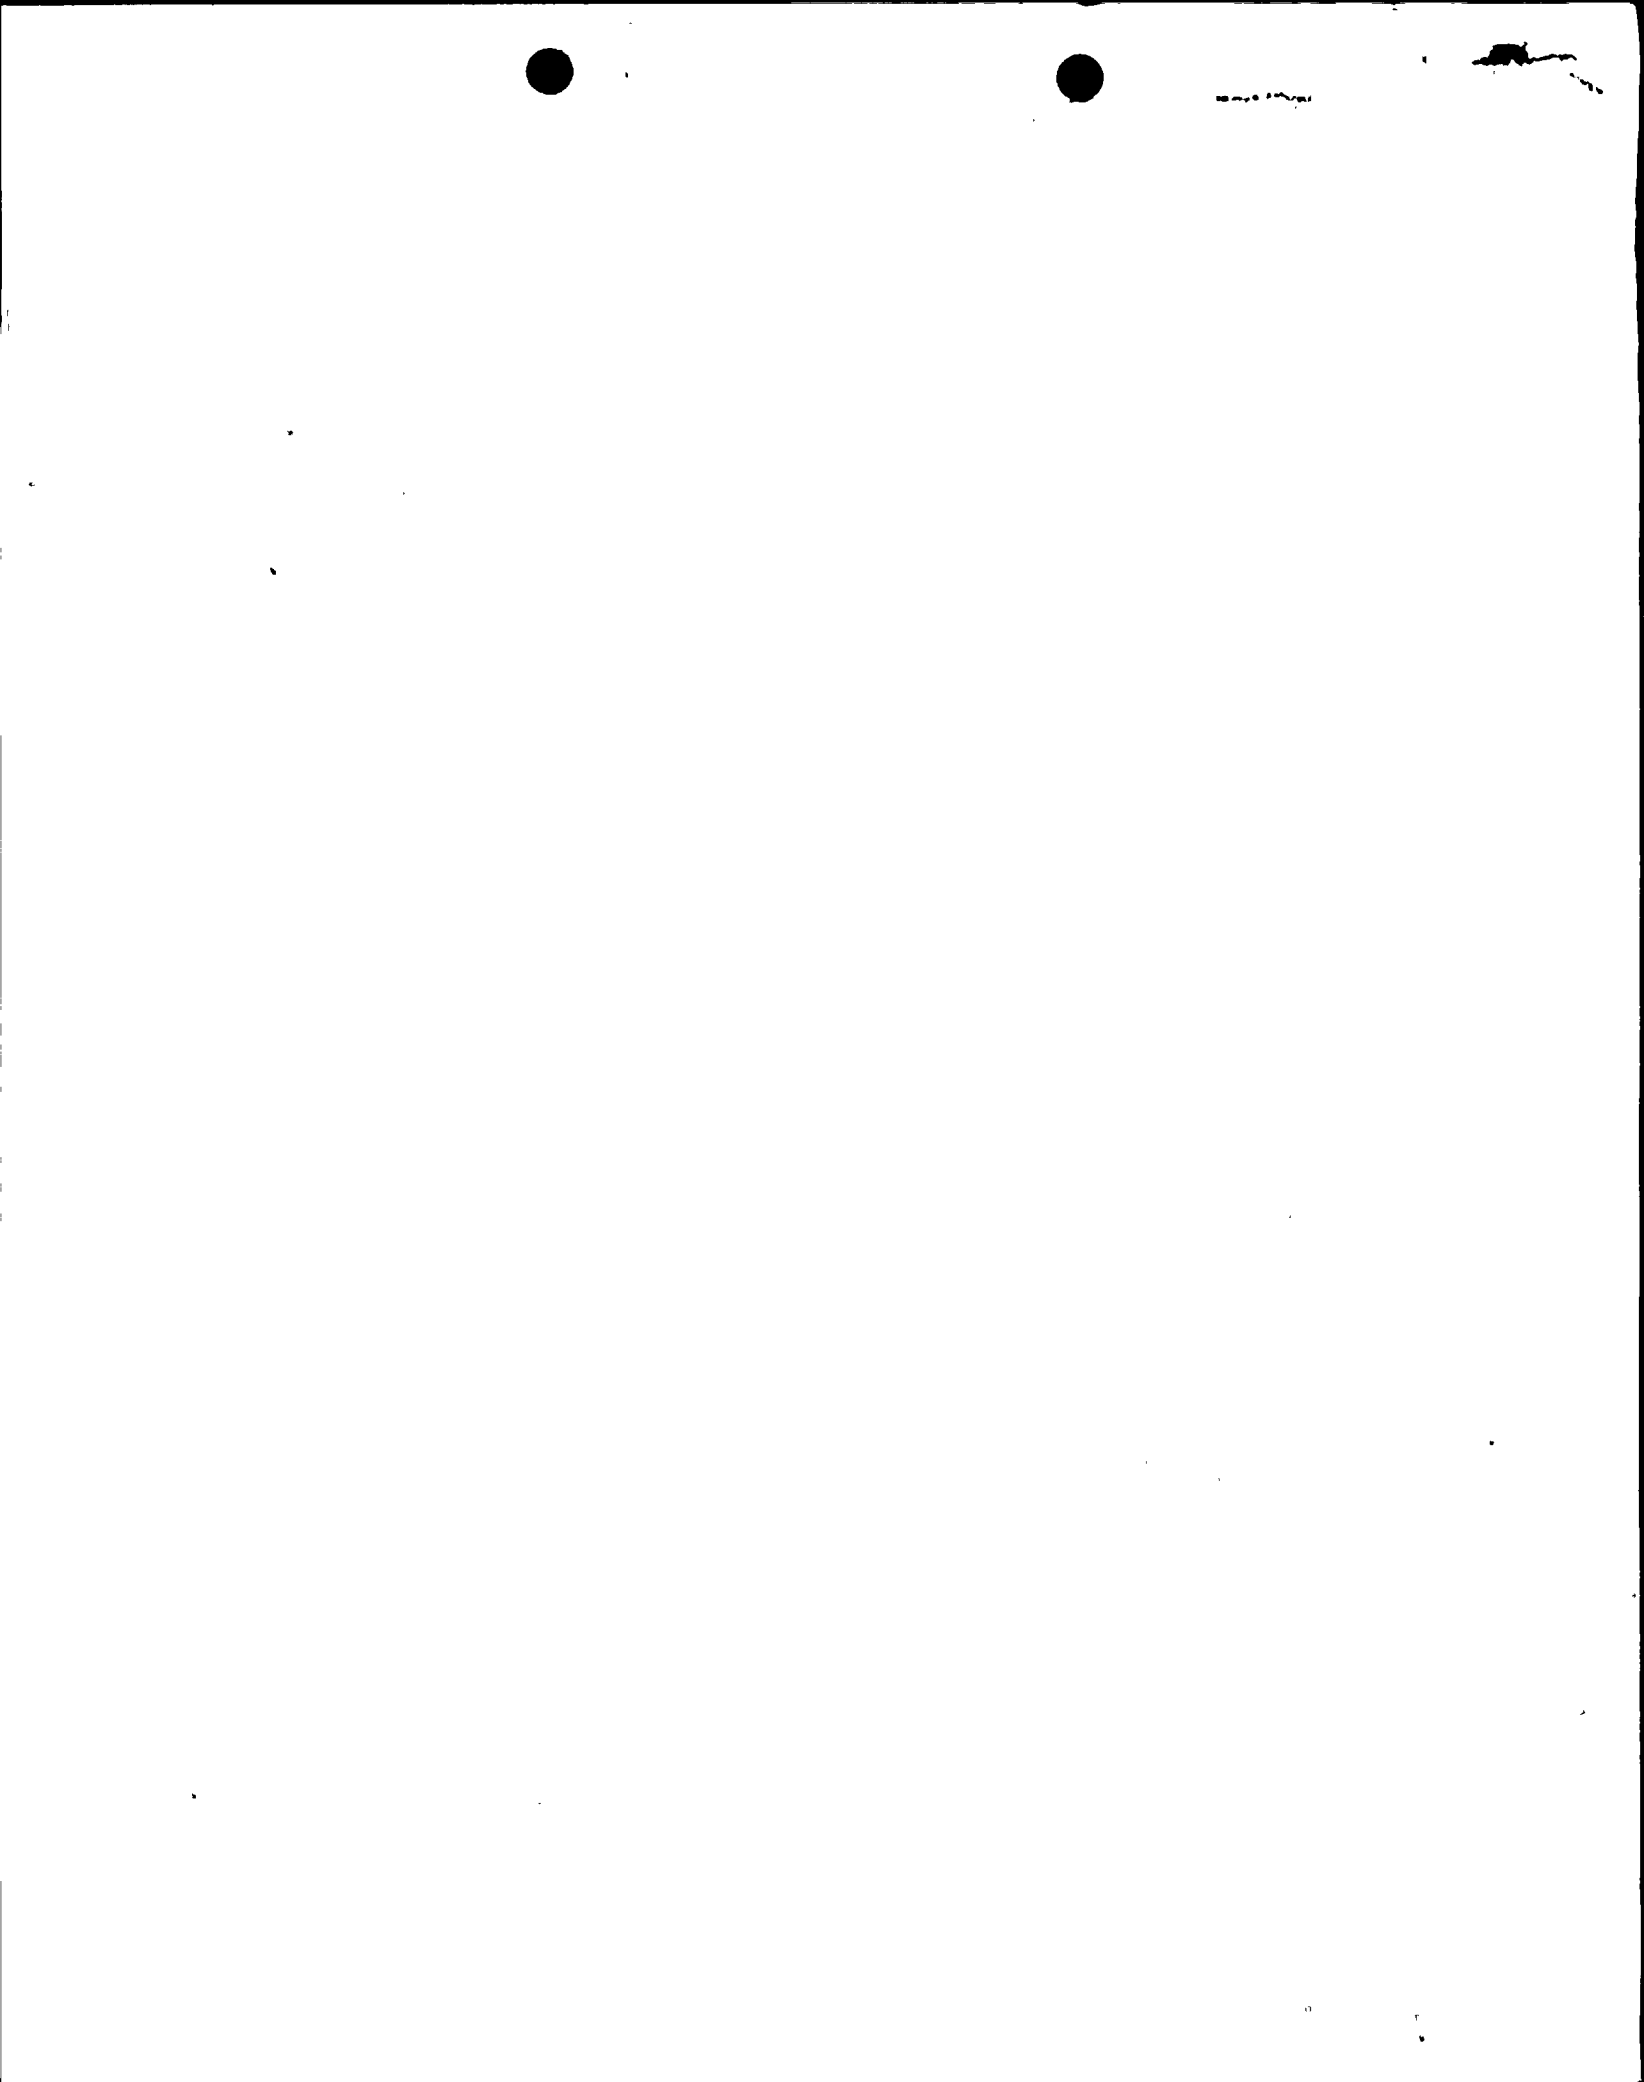

I'm not at all satisfied by the  
lack of emergency planning and execution  
for our country in case we need them. Nor  
do I approve of nuclear on site waste storage  
or transport.

I don't trust the technology. PGE  
built a cooling water tank which  
was suppose to hold up even under a tidal  
wave. Our biggest storm this winter caused  
in 200 and some ft. of it, how can we  
trust the same thing would happen with  
an "approved & inspected" containment building.

I'm 30 years old. Thank you  
Richard C. Stoeser
