Mr. Ahearn,
Please consider
the Diablo Canyon
and San Onofre Nuclear
Plants which would
save us 20 million
barrels of foreign
oil per year. That
would be a BIG help!

Dear Mr. Chairman
The proposed \$19.5 billion federal spending proposal
is out of this world, and should be cut
practically. Let's get rid of the Department of
Energy, the Department of Education, O.S.H.
and many others that keep taxing the honest
taxpayers. We don't need a Trillion Dollar
debt, and I am displaying a sign in front
of my ranch to alert people what is
going on in Washington.

I support Congressman Larry McDonald H. Res. 29
to investigate illegal and unethical practices
of the D.R.S.

We farm the license for Deale Canyon
and San Onofre Nuclear Power Plants.
If they should we pay the price for energy
we are paying. We don't need this expensive
foreign oil price increase. We have energy
resources in this country. We have to do it
get rid of government regulations and let
industry produce. Our natural gas
prices are twice as high as they should be.
The government is the problem. The oil market
check the attacks Oil fields we are making
the Indie Nation San Onofre Deale Canyon

50-361-360

Dear Sir,

I am writing in support of the licensing of Diablo Canyon and San Onofre Nuclear plants. It is sheer stupidity to have completed plants that are not allowed to be put in operation. I live less than 20 mi N of San Onofre and can see no problem with having the additional unit put in operation. Thank you.
