Dear Mr. Fray:

During the Design Office Verifications (DOV) conducted between December 20th and March 11, 1983 it was not possible to reach meaningful conclusions about the adequacy of seismic spectra control in the areas of:

1. Fuel Handling Building
2. Turbine Building
3. HVAC

At the time of the DOV's the calculations were not yet fully approved and the system for updating/correcting the calculations could not be thoroughly evaluated.

Please advise us of the time and location where we may complete the DOV's in the areas noted above.

Yours very truly,

R. F. Reedy, President
