Washington, D.C. 20555

Dear Sir,

Diablo Canyon Nuclear Power Plant has met all safety and seismic requirements, including those instituted since Three Mile Island. The plant is needed, now, and for the crucial years ahead to provide us with electrical energy. Our excessive fuel bills and worry about cut-off of oil from the Persian Gulf caused us to ask you to expedite the opening and licensing of this beautiful facility. We need it and every day of delay adds fuel to our inflation problems.

Please expedite this opening as rapidly as you can. We will all be most grateful.

Sincerely yours
Lulu H. Braghetta
