

DOMINION ENERGY KEWAUNEE, INC.

DOCKET NO. 50-305

KEWAUNEE POWER STATION

AMENDMENT TO FACILITY OPERATING LICENSE

Amendment No. 218  
License No. DPR-43

1. The U.S. Nuclear Regulatory Commission (the Commission) has found that:
  - A. The application (Agencywide Documents Access and Management System (ADAMS) Accession No. ML15261A238) dated September 14, 2015 and supplemented by a letter (ADAMS Accession No. ML16069A388) dated March 3, 2016 complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations set forth in Title 10 of the *Code of Federal Regulations* (10 CFR) Chapter I;
  - B. The facility will operate in conformity with the application, the provisions of the Act, and the rules and regulations of the Commission;
  - C. There is reasonable assurance: (i) that the activities authorized by this amendment can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the Commission's regulations;
  - D. The issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public; and
  - E. The issuance of this amendment is in accordance with 10 CFR Part 51 of the Commission's regulations and all applicable requirements have been satisfied.

2. Accordingly, by Amendment No. 218, License No. DPR-43 is hereby amended to reduce the scope of onsite emergency planning requirements by removing various emergency actions related to the Spent Fuel Pool; removing non-independent spent fuel storage installation (ISFSI) related emergency event types; replacing the "ISFSI Shift Supervisor" title for the current "Shift Manager" title as the position which assumes the Emergency Director's responsibilities, and revising the structure of the augmented emergency response organization.
3. The license amendment is effective as of the date of issuance, and shall be implemented within 60 days following DEK's submittal of a written certification to the NRC that the final spent nuclear fuel assembly has been transferred out of the spent fuel pool and placed in storage within the ISFSI.
