JUN 18 1985

Mr. J. D. Shiffer, Vice President
Nuclear Power Generation
c/o Nuclear Power Generation, Licensing
Pacific Gas and Electric Company
77 Beale Street, Room 1451
San Francisco, California 94106

Dear Mr. Shiffer:

Subject: Seismic Reevaluation Program

Enclosed for your information is a summary of an NRC staff meeting with PG&E on May 22, 1985. At the meeting the NRC staff comments on your reevaluation program were discussed which had been provided to you in our letter on May 9, 1985.

Sincerely,

Original signed by:
Victor Nerses

MEMORANDUM FOR: George Knighton, Chief
Licensing Branch No. 3, DL

FROM: Leon Reiter, Acting Chief
Geosciences Branch, DE

SUBJECT: SUMMARY OF THE MAY 22, 1985 MEETING WITH PG&E CONCERNING
NRC COMMENTS ON THE SEISMIC REEVALUATION PROGRAM PLAN

Attached is a summary of the meeting held on May 22, among PG&E and its consultants and the NRC and its advisors. The purpose of the meeting was to allow PG&E the opportunity to respond to NRC comments on PG&E's Seismic Reevaluation Program. A list of attendees is also attached.

A handwritten signature in cursive script, appearing to read "Leon Reiter".

Leon Reiter, Acting Chief
Geosciences Branch
Division of Engineering

May 22, 1985 MEETING REGARDING THE
DIABLO CANYON SEISMIC REEVALUATION PROGRAM

A meeting was held on May 22, 1985 among PG&E, its consultants and NRC and its advisors to discuss the NRC's comments on PG&E's Long Term Seismic Program. A list of attendees is attached.

Most of this meeting was involved with PG&E and its consultants orally addressing each NRC comment. PG&E agreed with all of the general comments and will factor them into the Program Plan. Most of the specific comments required clarifications or more detailed elaborations, which the licensee presented orally. These presentations will be documented formally.

The NRC and its advisors caucussed at the end of the meeting and presented the following comments:

1. The schedule for the near future includes the following milestones:
 - (1) June 10, 1985 - PG&E formal response to NRC comments on the Program Plan;
 - (2) June 24 and 25 - Diablo Canyon site field trip and geological reconnaissance;
 - (3) June 28, 1985 - NRC's final report on the Program Plan;
 - (4) July 10, 1985, 9:00 a.m. to 1:00 p.m. - ACRS Subcommittee meeting;
 - (5) July 11, 1985 - ACRS meeting; and
 - (6) November, 1985 - Quarterly meeting among PG&E and NRC to discuss PG&E's program scoping analysis.
2. PG&E should provide a written response to NRC's comments on the program plan for NRC and the ACRS. This formal response should include a summary of their presentations made at this meeting including viewgraphs with an explanation as to how this information supplements the program plan.
3. The program plan should continue to be kept flexible.
4. The ultimate goal of the seismic reevaluation program, to determine what the results mean to the seismic safety of the plant, should always be kept in mind. This was the intent of the seismic licensing condition.

3 3 3 3 3

5. We request that PG&E summarize all of the major issues as it sees them, in the formal submission. The NRC and its advisors had difficulty in providing constructive comments because the issues were not clearly stated in the Program Plan and PG&E did not present significantly new information at the meeting.
6. Clarification is needed as to who will replace TERA and Stewart Smith in performing the seismology and ground motion functions.
7. PG&E should also provide a response to ACRS comments on the Level 2 PRA in its formal response to NRC comments.
8. PG&E's formal documentation should be submitted to the staff by June 10, 1985. The staff will review these materials and submit its conclusions regarding the Program Plan to the ACRS by June 28.
