Docket No. 50-323, OL-DPR-82
Diablo Canyon Units 1 and 2
Generic Letter 83-28, Items 2.2.1 and 2.2.2

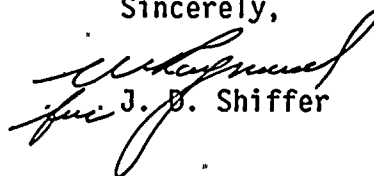

Dear Mr. Varga:

PGandE letter DCL-85-025, dated January 24, 1985, committed PGandE to provide to the NRC a description of the equipment classification and vendor interface program for all safety-related components prior to startup from the first refueling outages for Units 1 and 2, respectively.

Because both units at Diablo Canyon have essentially identical systems designs, and identical components which are supplied by the same vendors, PGandE plans to submit the program description for both units prior to startup from the first refueling outage for Unit 2.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it in the enclosed addressed envelope.

Sincerely,

J. D. Shiffer
