San Francisco, California 94106

Attention: Mr. J. D. Shiffer, Vice President
Nuclear Power Generation

Gentlemen:

Subject: NRC Inspection - Diablo Canyon Units 1 and 2

This refers to the routine inspection conducted by Mr. C. A. Hooker of this office on May 18-22, 1987, of activities authorized by NRC License Nos. DPR-80 and DPR-82 and to the discussion of our findings held by Mr. Hooker with Mr. R. C. Thornberry and other members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Based on the results of this inspection, it appears that one of your activities was not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A. Your response to this Notice is not necessary, since your corrective action was completed and verified by the inspector during the inspection.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this inspection, we will be glad to discuss them with you.

Sincerely,

Original Signed
F. A. Wenslawski, Chief
Emergency Preparedness and
Radiological Protection Branch
