Attention: Mr. J. D. Shiffer, Vice President  
Nuclear Power Generation

Gentlemen:

SUBJECT: NRC INSPECTION OF DIABLO CANYON NUCLEAR POWER PLANT (DCPP)

This refers to the routine inspection conducted by Mr. C. A. Clark of this office on August 29 through September 9, 1988, of activities authorized by NRC License Nos. DPR-80 and DPR-82, and to the discussions of our findings held by Mr. Clark with members of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Based on the results of this inspection, it appears that one of your activities deviated from a commitment made to the NRC, as set forth in the Notice of Deviation, enclosed herewith as Appendix A. Please respond to this notice as requested in the Appendix.

The deviation identified in this report concerns your failure to complete a corrective action for a previous violation by the date stated in your written reply to the Notice of Violation. Additionally, our review of your actions on other outstanding inspection issues found your action item tracking system to be often ineffective in ensuring the complete and timely follow-up of open issues. Your response to the Notice of Deviation should include your assessment of this perceived problem and action you conclude necessary to improve in this area.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosures will be placed in the NRC Public Document Room.

The response requested by this letter and the accompanying notice is not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
