Re: Docket No. 50-275, OL-DPR-80
Diablo Canyon Unit 1
Installation of Environmentally Qualified Flowmeter

Gentlemen:

In accordance with Regulatory Guide 1.97, PG&E committed in Letter DCL-86-086, dated March 27, 1986, to install environmentally qualified boric acid charging flowmeters when commercially available and inform the NRC upon installation. PG&E installed a qualified flowmeter in the boric acid charging line during the recent third refueling outage of Diablo Canyon Unit 1. As previously stated in Letter DCL-88-320, PG&E will inform the NRC upon completion of the qualified transducer installation at Diablo Canyon Unit 2, currently scheduled for the third refueling outage.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it in the enclosed addressed envelope.

Sincerely,

A handwritten signature in cursive script, appearing to read 'J. D. Shiffer'. The signature is written in dark ink and is positioned above the printed name.
