Diablo Canyon Units 1 and 2
Schedule Change for Response to Generic Letter 88-20:
Individual Plant Examination (IPE) Program Plan

Gentlemen:

PG&E letter DCL-89-272, dated October 30, 1989, committed to submit the response to Generic Letter 88-20 in two stages. The first stage was to be submitted by May 1, 1991, on the results and conclusions of the Level I analysis. The second stage was to be submitted by September 1, 1992, on the Level II analysis. However, in a letter dated July 30, 1990, the NRC Staff requested PG&E to submit the IPE Level I and II results together in a more expeditious schedule.

In response to the Staff's request, PG&E has revised the reporting schedule of the IPE Program Plan. The schedule submittal date for a single combined Level I and II report is April 15, 1992. Although the submittal date for the report has changed, the overall content of the IPE Program Plan as outlined in PG&E letter DCL-89-272 remains the same.

Sincerely,

A handwritten signature in cursive script, appearing to read 'J. D. Shiffer'. The signature is written in black ink and is positioned above the typed name 'J. D. Shiffer'.
