Replacement Insert for License Amendment Request 91-07

Gentlemen:

License Amendment Request (LAR) 91-07 was submitted to the NRC on August 7, 1991 (PG&E Letter No. DCL-91-196). The LAR proposed to change Section 6.0 of the Technical Specifications regarding the offsite review committee. The primary proposed changes were to change the committee name from General Office Nuclear Plant Review and Audit Committee (GONPRAC) to Nuclear Safety Oversight Committee (NSOC), change the committee composition, and eliminate the use of alternates on the committee.

Enclosed is a replacement insert for Technical Specification page 6-10 of LAR 91-07. The insert was revised to address a comment from the NRC Staff. The revision specifically states the experience requirements for NSOC members.

Sincerely,

A handwritten signature in black ink, appearing to read 'Greg Rueger'. The signature is fluid and cursive, with a long horizontal stroke at the end.
