Re: Docket No. 50-275, OL-DPR-80
Docket No. 50-323, OL-DPR-82
Diablo Canyon Units 1 and 2
License Amendment Request 91-08
Revision of Technical Specifications 1.8, 3/4.6.1, and 3/4.6.3 -
Removal of Containment Isolation Valves List
(Generic Letter 91-08)

Gentlemen:

Enclosed is an application for amendment to Facility Operating License Nos. DPR-80 and DPR-82. The enclosed license amendment request (LAR) proposes to revise Technical Specification (TS) 1.8, "Containment Integrity," TS 3/4.6.1, "Containment Integrity," and TS 3/4.6.3, "Containment Isolation Valves." These proposed changes will relocate TS Table 3.6-1, "Containment Isolation Valves," to Diablo Canyon Power Plant procedures in accordance with the guidance provided in Generic Letter 91-08, "Removal of Component Lists from Technical Specifications," dated May 6, 1991.

Since the changes proposed in this LAR are not required to address an immediate safety concern, PG&E believes that the NRC review and approval of this LAR should be of low priority. Due to the time required for plant procedure revision and approval resulting from these changes, PG&E requests that the NRC make the TS changes effective 30 days from the issuance of the license amendment.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Gregory M. Rueger', written over a horizontal line.
