Tim Martin  
Training Manager  
Pacific Gas & Electric Company  
Diablo Canyon Nuclear Facility  
P. O. Box 56  
Avila Beach, CA 93424

Dear Mr. Martin:

The NRC plans to administer a Generic Fundamentals Section of the Written Operator Licensing Examination (GFES) on June 10, 1992. The GFES will consist of 100 questions. The maximum time allowed to complete the examination is 2-½ hours and the passing score will be 80%.

An authorized representative from your facility must submit a letter listing the names of candidates for the examination to the appropriate NRC Regional Administrator and to the Chief, Operator Licensing Branch. The letter must be received both in the Region and at NRC Headquarters at least 30 days before the examination date to allow the NRC to assign the candidates docket numbers and to make preparations for shipping the examinations to you for administration. The letter must certify that the candidates will have completed their fundamentals training by the date of the examination and are enrolled in your training program leading to an NRC operator or senior operator license. The letter must also list the names of personnel you will be using to proctor the examination and the address to which the examinations should be sent. A sample registration letter is enclosed.

The address for the Operator Licensing Branch Chief is as follows:

Robert M. Gallo, Chief  
Operator Licensing Branch  
MS OWFN 10D-22  
U. S. Nuclear Regulatory Commission  
Washington, DC. 20555

The NRC will send you a letter delineating examination particulars (i.e., proctor responsibilities, student I.D. numbers, etc.) about two weeks prior to the administration date.

Sincerely,

*PPN a lot for*

L. F. Miller, Jr., Chief
