Annual Radioactive Effluent Release Report

Gentlemen:

As required by 10 CFR 50.36a(2) and Section 6.9.1.6 of the Diablo Canyon Power Plant (DCPP) Technical Specifications, PG&E is submitting the Annual Radioactive Effluent Release Report for 1993 (Enclosure 2).

The report describes the quantities of radioactive gaseous and liquid effluents released from the plant, and the solid radioactive waste shipments during the period January 1 through December 31, 1993.

In review of the DCPP 1992 Semi-Annual Radioactive Effluent Release Report for July 1 - December 31, 1992 submitted February 25, 1993 (PG&E Letter DCL-93-047) a typo graphical error was identified. PG&E hereby submits a correction to Table 10A (Enclosure 1). The corrected value is italicized and underlined in the new Table 10A. Please replace the Table 10A of the previous submittal with the Table 10 A that is enclosed.

If you have any questions, please contact Jeff Gardner of my staff at (805) 545-4385.

Sincerely,

John D. Townsend for JDT.
